

COMPETENT PERSON FORM

Project Name:

Definition: A Competent Person is a person who has the ability and has been reasonably trained to recognize hazards and has the authority to correct them.

Responsibility: The designated Competent Person is responsible for recognizing and correcting safety hazards. This person has the authority to stop work in the event of any potential safety concern on the job site. This representative is considered the contact person on safety related issues and shall be on site full time when hazard exists. This competent person will possess at least an OSHA 10 hour and CPR/First Aid training.

I acknowledge that I have been thoroughly trained and have the experience to perform duties as a competent person in the areas indicated for and I understand that I have the responsibility and authority to correct hazards and to stop work in the event of a potential hazardous or imminent danger situations. I understand the competent person will be on site during all work operations.
